

Establishing a global perspective to pass down the Universal Healing Tao System to future generations

What is skilfully established will not be uprooted.
What is skilfully grasped will not slip away.
Thus it is honoured for generations.

Cultivate the inner self,
 Its Power becomes real.
Cultivate the home,
 Its Power becomes abundant.
Cultivate the community,
 Its Power becomes greater.
Cultivate the organization,
 Its power becomes prolific.
Cultivate the world,
 Its Power becomes universal.

Therefore through the inner self,
 The inner self is conceived.
Through the home,
 The home is conceived.
Through the community,
 The community is conceived.
Through the organisation,
 The organization is conceived.
Through the world,
 The world is conceived.

How do I know the world?
 Through this.

-By the Tao of Power, Lao Tzu's Classic Guide to Leadership, Influence and Excellence

What does it mean to have, within the Universal Healing Tao Organization, an Orbital Network Communication Attitude?

First of all it means to take a **global perspective** in order to gain insight into the interdependent relationship between the individual and the outside world. Beginning with the smallest social unit, the self, and then continuing to the family, the community, its governing body and world society. Wherever Taoist principles are applied intelligent energy is enhanced, and we are needed.

In order to align those social units to the Tao, their underlying patterns must be perceived by constructing, in the mind, a vision of an ideally operating social unit; one that functions in a supportive and socially aesthetic manner. In order to conceive of an ideally functioning world, evolved individuals cultivate the mind, body and spirit.

THE POWER OF A WORLD VISION IN AN EVOLVED MIND CAN HELP DRAW THAT
IDEAL INTO REALITY FOR FUTURE GENERATIONS.

An Orbital Network Communication Attitude also means, within the new Universal Healing Tao System, we must all work together to realize that:

Physically

When you and I work together we accomplish much more.

Mentally

When you and I put our best thoughts together we co-create a new and far better reality.

Emotionally

When you and I recognize the need for appreciation, gratitude, and love and express it - both giving and receiving it gracefully in balanced way - we teach others to do the same.

Spiritually

You and I are one and the same. We choose to consciously grow cooperation, trust, and the spirit of collaboration within our Universal Healing Tao Network. Every Universal Healing Tao

Instructor knows that she/he has their own spin, in their own orbit (Microcosmic, of course), and realizes that he/she is part of larger spinning forces within the Universe, such as planets, stars, etc, of which its largest power is the Source.

Last, it means that by our Universal Healing Tao Mission-Vision, “BEING IN TOUCH WITH SOURCE”, we realize that each individual, from the Student to the Master, are taking on a new role within the Universal Healing Tao Organization. We are becoming co-creators and as such, the whole is greater than the sum of its parts.

Orbital Network Communication is therefore based on mutual respect, appreciation, gratitude, and love. It fosters co-creative ways of cooperation through trust and collaboration to responsibly draw that Mission-Vision ideal into reality for future generations by passing down a system that is based in a Universal and global perspective.
