**Mission UHTS (Universal Healing Tao System) – Be in touch with Source**

### **Dear European Senior Instructor**

First of all we want to extend our appreciation and gratitude for the work you do and have done within the Universal Healing Tao System. Senior Instructors have been and will become in the near future even more important as they hold a key role in our Mission 2012 success.

Your opinion, input, as well as your participation in the Mission-Vision Process 2012 means a lot to us. Let us therefore inform you briefly about what has happened so far.

The process started in April 07 and continued in Tao Garden for two weeks in August. It is not finished and we have many “mile stones” along the process. One of them will be when the Universal Healing Tao Continental Network will meet for the first time and share about the implementation of the new Mission-Vision 2012. This meeting will take place in January 26<sup>th</sup>/27<sup>th</sup> 2008 in Tao Garden. You are very welcome to participate and join us during that time.

Now the process has moved to a stage where it is vital that you communicate with us. Since I am not able for obvious reasons to do that task any longer, I have created, empowered and mandated for this purpose the new position of European Senior Instructor Coaches (if interested in this position please go to [universal-tao.com](http://universal-tao.com) / Instructor WUHTIF requirements). A few Universal Healing Tao Senior Instructors on several continents are already taking care now of the necessary orbital network communication.

Walter Kellenberger is the overall coordinator for the Orbital Network amongst all continents. He will present the Mission-Vision Process 2012 for you more visibly by the end of September on our website [www.universal-tao.com](http://www.universal-tao.com). With your instructor password you can then download the mission-vision process and also actively participate if you like to.

Europe is the first continent where I intend to implement the Mission-Vision 2012 and I appreciate your willingness to join us all in our process of communicating in a collaborative win-win style.

In order to be able to step by step involve you in the process and inform you in the future more quickly about things we need as soon as possible your correct current address and a functioning e-mail.

Therefore your first step in our Mission-Vision communication process is to please make contact with Walter Kellenberger (e-mail: 'waju@gmx.net') who will collect your coordinates and questions you might have so far.

We look forward to our future communications and thank you for your willingness to actively participate in this process. We look forward seeing you in January in Tao Garden or at the 2008 EIR Meeting in France.
